

## Open call for cell-based medicine project ideas

### Signature page

#### Project title (non-confidential):

*Please insert your non-confidential project title (same as used in the application)*

In submitting this application, I agree that the information of my application may be communicated to members of the Virchow 2.0 conception phase consortium at the four initial academic partners: the Max Delbrück Center for Molecular Medicine (MDC), the Berlin Institute of Health (BIH), the Charité and Zuse Institute Berlin (ZIB) involved in the selection process as well as to external reviewers who have signed a confidentiality agreement. As described in the [Information to Data Subjects](#), the purpose of this data processing is to select the project teams that will be included in the Virchow 2.0 cluster strategy, and if positively evaluated at the final step of the BMBF competition, realize their project idea in the implementation phase.

#### I hereby confirm that:

- I have read and understood the information presented in the [Information to Data Subjects](#) in accordance with Art. 13 EU GDPR. This declaration of consent is voluntary and can be revoked at any time with effect for the future. The legality of the data processing carried out on the basis of the consent until the revocation is not affected by this.
- I am an employee of the institution(s) named below in the signature section.
- I am part of the project team filing an application under the title mentioned above.
- My organisation is willing to co-fund the collaborative project as described in the application budget plan according to the [Clusters4Future BMBF guidelines](#) if the project idea is selected in the conception phase and if Virchow 2.0 qualifies for the implementation phase (industry partners are expected to commit to co-funding of their own project costs, academic partners can but are not obligated to provide co-funding).
- With my co-applicants I am willing and available to participate in an in-person Virchow 2.0 strategy workshop on February 14, 2022 with partners of all selected project teams. I am also willing to support the Virchow 2.0 conception phase team in preparing the final Virchow 2.0 cluster proposal especially regarding all matters related to my project idea.
- Currently no alternative funding for the project idea applied for exists.
- I will give immediate notification if I apply for funding for this project anywhere else during the application process and (in case of selection of this project) during the period before the start of the Virchow 2.0 first implementation phase and the entire funding period.
- all information about me and my organisation made in this application is correct.
- I will give immediate notification in case of any changes of this information during the application process and (in case of selection of this project) during the period before the start of the Virchow 2.0 first implementation phase and the entire funding period.
- I have read and understood the [Virchow 2.0 Open Call Information](#). I am aware of and will comply with the terms and conditions mentioned therein, associated with applying for the Virchow 2.0 Open call for cell-based medicine project ideas.
